

Super Soluble Maxijul

DESCRIPTION

Super Soluble Maxijul is a convenient powdered carbohydrate energy supplement. A food for special medical purposes.

INDICATIONS

Super Soluble Maxijul can be recommended for the dietary management of conditions requiring a high energy, low fluid diet in infants, children and adults.

SUGGESTED INTAKE

The quantity of **Super Soluble Maxijul** should be determined by a clinician or dietitian and is dependent on the age, bodyweight and medical condition of the patient.

PREPARATION AND ADMINISTRATION

Super Soluble Maxijul can easily be incorporated into a wide variety of drinks and foods. **Super Soluble Maxijul** is also useful as an energy enhancer in tube and sip feeds. Recipe ideas are available upon request.

To make a solution of **Super Soluble Maxijul** put the required amount of powder into water and stir briskly with a fork, leave to stand until clear.

OSMOLALITY

Super Soluble Maxijul in solution has an osmolality one fifth of an equivalent solution of glucose allowing administration at higher concentrations. This is because the lower osmotic load improves patient tolerance.

1 to 3 dilution (1kcal/ml)

(e.g. 50g **Super Soluble Maxijul** + 150ml water)
= 420 mosm/kg.

1 to 2 dilution (1.4 kcal/ml)

(e.g. 75g **Super Soluble Maxijul** + 150ml water)
= 759 mosm/kg.

PRECAUTIONS

Use under medical supervision.

Use with caution in diabetes.

Not suitable for use as a sole source of nutrition.

Not for parenteral use.

STORAGE

Store in a cool dry place.

Always replace the container lid after use.

Once opened, use within one month.
